Campsites and Other Locations

If you need the coordinates in UTM format you can download the list [here](#) (PDF file). All of these coordinates are from official sources, but I can't personally verify the accuracy of every location.

Eventually I want to have detailed descriptions and pictures of every campsite. I would also like a picture of the map posted at each campsite. Look at the entry for [Santa Claus Camp](#) as an example. Send me an email at thephilmontexplorer@gmail.com if you can help me out.
